# South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

## WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

*Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...*

Bridges Preparatory School is helping all students develop the world class skills, life and career characteristics of the profile of its graduate by providing students equal access to a high quality K-12 whole child education that maximizes academic excellence and strength of character, in a student-centered learning environment created by a faculty of lifelong learners. BPS is the first area charter school to re-commit to a sustainable neighborhood school model and the second school in SC to implement the Paideia method, a holistic, whole-child approach to active learning based on Mortimer Adler's manifesto. Students engage in diverse and relevant academic and social experiences. They participated in experiential learning, such as buggy tours, walks to the fire station, planetarium, college campuses and museums in and out of state. Bridges recruited a curriculum specialist, a GT coordinator, a reading and a math coach and interventionist, to enhance teaching and learning. World class knowledge is achieved through rigorous instruction based on state and national standards in language arts, math, science, technology, arts and social sciences. A daily differentiation period addressed individual skill levels through blended learning interventions. Students were exposed to award-winning Spanish programs that promote global perspectives in K-7. The Algebra I EOC passing rate exceeded the national average, which supports career and college readiness. Students had enrichment opportunities in a quality, affordable after-school program, a unique year-round sports program, and STEM-infused adventures, like Turtle Patrol. Students develop intrinsic understandings about interpersonal skills through embedded character education. This is reflected in the Government System, where older students have internal courts to set their own rules and practice conflict resolution. Middle school participated in a junior leadership group that regularly meets with the mayor at City Hall. Competitions such as the Battle of the Books fostered student collaboration and teamwork, while musical performances, band and strings programs nurtured creativity and innovative mathematical thinking. Family STEM & Tech Nights promoted media and technology, while Paideia seminars and Guidance workshops fostered communication, critical thinking and problem solving. Students benefited from our community partnerships and from our faculty's extensive professional development, such as Project-Based Learning and Paideia on-site trainings.
